

ALPINE

ON TOGETHERNESS

The Sone Family

Members since 1992

Our Alpine journey began in 1992 when Marla and Evan first experienced the great skiing Alpine had to offer. In the following years, our time on the slopes was limited with the arrival of our premature triplets, but as life gradually settled, we found our way back to Alpine.

At 4 years old, Ariella and Josh started lessons and Zach enjoyed the daycare. Eventually, even Zach tried skiing.

The weekend routine was set – the Sone family arriving late for lessons, lunch in the clubhouse, and Evan arranging one of the first charging accounts with Shari in the cafeteria.

Over time, the kids became excellent skiers and boarders, looking forward to each weekend at Alpine with family and friends.

As you may have seen, we recently started Zach's Sit-ski Team with Zach in his sit-ski surrounded by family and friends in bright green jackets, allowing Zach to ski with his family and friends again. The members of Alpine have embraced Zach's sit-ski and have been nothing but welcoming and supportive of our team.

We hope to continue to inspire and encourage other members of the Alpine family to get out and experience all that Alpine has to offer in any way they can.
